Important information concerning your electric supply.

The Hunterdon Area Energy Cooperative's current Community Energy Aggregation Program will soon be coming to an end.

Here's What's Happening:

The contract that the Hunterdon Area Energy Cooperative (HAEC) has with IDT Energy, Inc. to furnish your electric supply through the Community Energy Aggregation Program is ending with your December 2020 meter read, and your electric supply service will be returned to your local utility company, JCP&L. No action is required on your part. Your electric service will continue uninterrupted.

Here's What Happens Next:

We are pleased to announce that **the program will be returning at a new rate of \$0.0867/kWh for a term of 9 months effective March 2021, and the new program offers residents the opportunity to select a 100% renewable energy option.** You will receive a more extensive mailing in January 2021 with complete details about the new program, including frequently asked questions, dates and times for outreach presentations, and methods you can use to opt-out of the program should you not wish to participate.

If you have questions about this information, please call the program's Customer Care Team at 1-866-688-5197 or email info@commercialutility.com. Updated program information is provided on the HAEC's web page at www.njaggregation.us/HAEC.

Thank you for participating in the HAEC's Community Energy Aggregation Program.
