

HUNTERDON AREA ENERGY COOPERATIVE

Dear Borough of Califon Resident,

I am proud to write to you today to share the good news about the Hunterdon Area Energy Cooperative. The Borough of Califon has opted to participate in this state-authorized "Community Aggregation Program" designed to offer you and your neighbors reduced rates on your electric bills.

The bottom line is that when we all purchase energy together as a community, we are able to access lower rates.

Community Aggregation is very different than other third party supply contracts and offers protections to you that individual contracts may not offer:

The rate is the same from month-to-month.

The ability to leave the program at ANY TIME

NO penalties or fees to leave the program

The following pages contain important information explaining the Community Aggregation Program established by the Borough of Califon to provide lower electric generation rates than you would currently pay with JCP&L. We are pleased to offer this cost saving program for your electric bills!

We have scheduled public information sessions about the program so that everyone can learn more and get their questions answered. Meetings will be held at Borough Hall, located at 39 Academy Street in Califon, New Jersey, on Wednesday, December 5, 2018 at 11:00 a.m. and 7:00 p.m.

We hope to see you at one of the sessions.

Sincerely,

Charles Daniel

Charles Daniel, Mayor

THINGS YOU SHOULD KNOW ABOUT COMMUNITY ENERGY AGGREGATION

NOTHING CHANGES

All current services such as delivery, meter readings, billing, payments, emergency services, etc., are serviced through JCP&L, just as they are today.

This program offers the reduced rate on the supply portion of your electric bill. You will still be billed for consumption (delivery) charges from JCP&L, just as you are today.

The rate offered is the same from month-to-month.

Budget billing will be offered. If you are currently enrolled in a budget bill plan with JCP&L, the program's supplier will start a budget bill plan for you. In addition, anyone wishing to enroll in a budget plan through the program may also elect to do so.

There are no fees for participation in the program. You may choose to join or leave the program at any time, as often as you wish, for the duration of the program at no cost. You will never be charged fees or incur penalties, even after the initial 30-day response period.

You will continue to call JCP&L for service-related questions and outages. For outages, you will still call JCP&L at (888) 544-4877, and for billing-related questions, you can call JCP&L at (888) 544-4877 or IDT Energy, Inc. at (855) 823-9309.

No one will be calling or knocking on your door regarding this program. All information regarding this program is mailed through the US Postal Service and will be posted on the program's website at www.njaggregation.us/HAEC. Please be wary of anyone trying to obtain or discuss your account information otherwise.

We're all in this together. We know municipal energy issues like this can sometimes be a bit technical and perhaps even boring. Please keep in mind that this is something your neighbors and people across Hunterdon County will be doing. We believe it will result, as it has in other communities, in a positive outcome and real savings for our community and our residents.

BUDGET BILL INFORMATION

For those residents who are on a **budget bill program** through JCP&L, please review the information provided on this page.

- If you are currently on Budget Billing with JCP&L, you will **automatically** be offered a budget bill with this program through IDT Energy, Inc.
- Prior to entering the program, you will receive a reconciliation or “true up” bill from JCP&L. This is to bring your account to zero prior to entering the energy aggregation program.
- The reconciliation amount may be substantial, depending on how much you are over or under on the budgeted amount, and this reconciliation may come as a charge or a credit on your bill.
- This new budget amount will be based on your most current usage history for the last 12 months. After six months in the program, IDT Energy may conduct an adjustment to your monthly budget amount to ensure your budget is in line with your usage.
- After 3 months with the program, IDT Energy will conduct a reconciliation or “true up” to keep the amount of money owed to or by you at a manageable level.
- **If you choose to leave the program**, you will be provided another true up which will bring your account to zero prior to leaving the program.
- If a new rate is not offered at the end of this initial contract term for the program participants, you will receive a reconciliation or “true up” bill on the last bill. Just as above, this will zero out your account prior to returning to JCP&L. The resulting credit or charges *may* be substantial if your usage is significantly lower or higher than the prior year.
- Any resulting reconciliation charge or “true up” amount represents your usage over and above the amount you were budgeted for and is not for “extra charges”. **We encourage you to track your usage vs. your budgeted amount so you can stay current on your usage and charges.**
- If you have a credit against your budgeted amount, meaning you used less energy than budgeted for, your credit will be applied to any future charges on your bill.

Please contact a Commercial Utility Consultants customer care agent at (855) 200-2648 with questions.

Thank you!

FREQUENTLY ASKED QUESTIONS

What is the Hunterdon Area Energy Cooperative? Municipalities have the ability to pool together the usage of all their residents to obtain a lower energy supply rate than you are currently being charged. We can then offer that rate to participating residents.

Who oversees the Hunterdon Area Energy Cooperative process? The program's Energy Agents, Commercial Utility Consultants and Concord Energy Services, report all activities related to administration and management of the Hunterdon Area Energy Cooperative to the NJ Board of Public Utilities, the Division of Rate Counsel and the Department of Community Affairs.

Is my municipality the only one in the Energy Aggregation Program? No, your municipality chose to participate in this program along with three others in order to maximize buying power and obtain real savings for its residents.

What information will I receive about the program? Aside from public meetings and advertising, you will receive at least two letters: one is your official opt-out letter (attached in this packet) which provides details such as the program rate, term, chosen supplier and the deadline for opting out; and the second is a confirmation letter from JCP&L stating that you have elected to remain in the program and the date your rate will be adjusted. This second letter is a form letter stating you have chosen to switch, even though the program was chosen by your municipality as a benefit to you. You may disregard this second letter.

Are Commercial Utility Consultants and Concord Energy Services energy suppliers? No. They are independent consultants that work with all of the energy suppliers licensed by the Board of Public Utilities to do business in New Jersey to obtain the energy contract and work through the process to put the energy aggregation program in place for your municipality.

Do I have to be enrolled in this program? No. You can choose not to participate by going to www.njaggregation.us/HAEC, by calling (877) 292-3904, or by returning the enclosed response card.

Will I be penalized if I do not become a part of the program? No. If you do not want to be a part of our program, you are free to stay with your current utility or choose your own Third Party Supplier. There will never be a fee or penalty associated with participation or non- participation in this program.

Am I going to have to pay more than one bill if I am a part of this program? No. You will continue to pay one bill directly to JCP&L, just as you always have.

If I have solar panels, can I be a part of this program? At this time, suppliers are not able to process the net metering portion of solar credits, and we recommend that you opt out of the program to avoid losing your credits.

Who will read my meter now? JCP&L will still be reading your meter.

Can my information be sold to advertisers or energy companies? No. Your information, including your account number, is confidential and can only be used to set up the municipality's program.

Dear Borough of Califon Resident:

Recently, the Borough of Califon took advantage of a state law that allows us to establish a Community Energy Aggregation Program. For municipalities that choose to participate, this program permits the aggregation of all residential customers within participating municipalities for the purpose of competitively purchasing electricity at rates lower than are currently available from your electric utility. The Borough of Califon, along with three other municipalities, combined the electricity consumption of their residents' electric accounts, obtained competitive bids from suppliers licensed by the New Jersey Board of Public Utilities to provide electric supply service, and achieved savings for our residents.

How the Program Works: We obtained a rate that is lower than what JCP&L currently charges for the energy supply portion of your bill.¹ This program offers a flat rate and is designed to offer a reduced rate without the risk of unexpected rate increases, unlike other variable Third Party Supply (TPS) contracts. This means the rate will remain the same for the term of the contract.

Electricity Auction Results: An auction was held on June 26, 2018, and the results were a program rate of **\$0.0863/kWh** offered by IDT Energy, Inc. (855-823-9309) compared to JCP&L average Price to Compare rate of \$0.105331/kWh. The program rate will go into effect with your **February 2019** meter read date and will continue through your **October 2020** meter read date. By way of example, if your monthly electric usage is 700/kWh, your bill under this program will be \$60.41 for the supply portion versus \$73.73 that you would have paid through with JCP&L. You will see your initial savings on the electric bill you receive in March 2019.

JCP&L will continue to deliver your electricity, and you will be billed at the regulated delivery rate. JCP&L will continue to provide all emergency and safety services. JCP&L will also continue to provide customer services such as meter reading, billing² and service restoration. You will also continue to only receive one bill and continue to pay JCP&L.

In accordance with the State's program requirements, as a Califon resident you will be automatically enrolled in the program unless you opt-out by **12/31/2018**. Once enrolled, **you may leave at any time. You will never incur any fees for leaving or rejoining the program.**³

As a residential electric customer who has not chosen a Third Party Supplier (TPS) for your electric supply, you will be automatically enrolled in this program and receive the anticipated energy savings **unless you indicate your desire not to participate** by completing and mailing the enclosed response card by **12/31/2018**. (The date shall not be less than 30 calendar days after the postmark on this notice.) **You may also call (877) 292-3904 toll free to opt out** (please note that wait times may be longer during high call time periods and please have your bill handy) **or visit www.njaggregation.us/HAEC. For all other questions and more detailed information, call toll free at (855) 200-2648.**

1 JCP&L rates may increase or decrease during the course of this program, which would affect the anticipated level of customer savings. Savings cannot be guaranteed over the term of the agreement. JCP&L charges can change quarterly and are posted on the web.

2 Other billing arrangements may apply for customers who do not remain current with their bills.

3 Leaving the program is subject to the timing of meter readings and typically takes 1-2 billing cycles.
