Energy Aggregation Program Update

SWAEC Program Notice
Important Update on Your Community Energy Aggregation Program

Dear Resident,

Since September 2024, your town's Community Energy Aggregation Program has provided residents with reduced electricity rates through the Sussex Warren Area Energy Cooperative "SWAEC", offering a standard rate of \$0.1119/kWh and an optional 100% green energy rate of \$0.1196/kWh.

Due to a regulatory change by the Federal Energy Regulatory Commission, capacity pricing adjustments have impacted electricity rates. As a result, JCP&L's utility's anticipated price-to-compare as of June 1, 2025, will be:

- \$0.142668/kWh for the first 600 kWh used
- \$0.151893/kWh for usage above 600 kWh

Beginning June 1, 2025, through your first meter read on or after November 30, 2025, the SWAEC Community Energy Aggregation Program will offer:

- \$0.1394/kWh for the Standard Program Option (no additional renewable energy)
- \$0.1494/kWh for the Green Program Option (100% renewable energy)

Additionally, beginning in October 2025, JCP&L's rate is expected to increase to \$0.15360/kWh.

You may opt out of the SWAEC Community Energy Aggregation Program at any time with no fees or penalties. To opt out, please call 877-292-3904 or visit <https://njaggregation.us/swaec>. If you have any questions, please contact the program's energy agents at 866-688-5197 x3.
